ABSTRACT

Financial statistics of institutions of higher education were surveyed. The 14th annual Higher Education General Information Survey (HEGIS XIV) was mailed to all institutions listed in the Educational Directory, Colleges and Universities, 1978-79. Completed survey forms were received from 2,909 institutions (91.7 percent). Data were imputed for nonrespondents. Summary tables show selected financial statistics for fiscal years 1978 and 1979 and the percentage change by control, region, and state on the following information: current funds revenues, expenditures, value of physical plant assets, indebtedness, endowment, tuition, scholarship and fellowship awards, and educational expenditures. There was a net increase of six 4-year institutions and 37 2-year colleges. In 1979 as compared with 1978, two states had two more public institutions (Nebraska and Hawaii) and one outlying area (Puerto Rico) had one more; three states (New York, Texas, and Alaska) has a net loss of one; and the District of Columbia lost two publicly-controlled units. The net result was two more public reporting units for the aggregate United States in 1979 than in 1978. There was a net increase of 41 private institutions of higher education. The survey report form is appended. (CC)

Foreword

This publication contains financial statistics on the Nation's colleges and universities for the fiscal year that ended in 1979. The kinds of data displayed are listed in the Contents and the definitions for the categories are included with the survey form that appears as appendix F.

The data printed here were collected by the 14th annual Higher Education General Information Survey which also collected data on fall enrollments, degrees awarded, faculty salaries and fringe benefits, and institutional characteristics. For the most part, financial statistics were collected using definitions and instructions that were consistent with *College and University Business Administration: Administrative Service* (published by the National Association of College and University Business Officers), the *Higher Education Finance Manual* (published by the National Center for Education Statistics), and with the *Audits of Colleges and Universities* (as amended August 31, 1974, by the American Institute of Certified Public Accountants). The data collected by part G of the financial statistics survey were collected for and tabulated by the Bureau of the Census, U.S. Department of Commerce, and do not appear in this report.

In addition to national aggregates, the data are presented by State and region, by control (public or private), and by level (university, other 4-year, and 2-year colleges). No institutional data are provided.

We gratefully acknowledge the cooperation of the college and university business officers and other officials who provided the data for this report and the assistance of State coordinators in collecting and editing these data.

Appendixes

Appendix A— Methodology

NCES Form 2300-4, "Financial Statistics of Institutions of Higher Education for Fiscal Year Ending 1979," was mailed out as part of the 14th annual Higher Education General Information Survey (HEGIS XIV) package to all institutions of higher education that were listed in the Education Directory, Colleges and Universities, 1978-79. A copy of the survey form with aggregate U.S. data for the 1979 fiscal year appears as appendix F.

Completed survey forms were received from 2,909 institutions—a response rate of 91.7 percent. The population of inquiry, the number of respondents, and the number of nonrespondents are shown in appendixes B, C, and D, respectively. Those institutions that failed to respond or to provide adequate data are listed in appendix E.

Nonresponse Imputation

Two methods were used to impute data for nonrespondents: (1) if 1978 data were available, these data were inflated by the Higher Education Price Index and adjusted according to changes in enrollments; or (2) if no previous year's data were available, 1979 data were used from peer institutions—selected for location (State or region), control, level, and enrollment size of institution. The imputed current funds expenditures of the nonrespondents were only 2.8 percent of the aggregate U.S. total.

Data Allocation

In addition to nonresponse imputation, NCES often had to allocate combined reports and central office data to the constituent campuses. When a combined report (a survey form containing data for two or more institutional units) was received, NCES attempted to obtain individual data. That is, we requested that a separate form be submitted for each institutional unit that is listed in the Education Directory, excluding central administration or systems offices. When that failed, we called the respondents to discuss allocation procedures. The data from combined reports or from systems offices were distributed to the institutional units on the basis of enrollments, current funds expenditures, or according to prorating factors provided by the respondents. When possible, we used the same basis for allocating fiscal year 1979 dollars that was used in 1978.

Table Notes

Summary tables A through I show selected financial statistics for fiscal years 1978 and 1979 and the percentage change by control, region, and State. Often these statistics are affected by changes in the numbers of institutional units; in other words, the population inquiry was not the same for 1979 as it was for 1978.

Overall there were 43 more institutional units in FY 1979 survey than in FY 1978. There was a net increase of six 4-year institutions and thirty-seven 2-year colleges.

In 1979 as compared with 1978, two States (South Carolina and California) had two more public institutions; two States (Nebraska and Hawaii) and one outlying area (Puerto Rico) had one more; three States (New York, Texas, and Alaska) had a net loss of one; and the District of Columbia lost two publicly controlled units. The net result was two more public reporting units for the aggregate United States in 1979 than in 1978.

There was a net increase of 41 private institutions of higher education. North Carolina and Tennesse each had six more private schools in FY 1979; Georgia added five; Wisconsin, Florida, Kentucky, South Carolina, California, and Puerto Rico added three; Maine, Indiana, Missouri, and Arkansas each added two; Connecticut, Michigan, Ohio, Iowa, North Dakota, South Dakota, Alabama, Louisiana, Montana, and

Alaska each netted one. Some States had fewer private colleges in 1979: New York had a net loss of four; Vermont lost three; New Jersey, two; and District of Columbia, Pennsylvania, and Oklahoma were down one.

For more information about institutions that opened, closed, merged, or otherwise changed their status, see Appendix A of the Education Directory, Colleges and Universities, 1978-79.

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

HIGHER EDUCATION GENERAL INFORMATION SURVEY (HEGIS XIV)
DEFINITIONS AND INSTRUCTIONS
FINANCIAL STATISTICS OF INSTITUTIONS OF HIGHER EDUCATION FOR FISCAL YEAR ENDING 1979

GENERAL

The categories of current funds revenues (Part A), current funds expenditures and mandatory transfers (Part B), and the statement of changes in fund balances (Part F) are consistent with the *College and University Business Administration: Administrative Service* (published in 1974 by the National Association of College and University Business Officers), the *Higher Education Finance Manual* (published in 1975 by the National Center for Education Statistics), and with the *Audits of Colleges and Universities* (as amended August 31, 1974 by the American Institute of Certified Public Accountants).

If you need clarification on any of the definitions or instructions on Parts A-F, please call Mr. Norman Brandt, the survey director, at (202) 245-8392 in Washington, D.C. For clarification on Part G, call Mr. Howard Sales or Mr. Ulvey Harris, Bureau of the Census, at (301) 763-2892.

To avoid unnecessary overlapping of Federal surveys of the finances of your institution, this survey is designed to include the financial statistics previously collected by the U.S. Department of Commerce, Bureau of the Census Form F-15.

Publicly controlled institutions are asked to submit two copies of this survey form to the address below: one for use by the National Center for Education Statistics, and another for use by the Bureau of the Census.

Please complete this survey form and return it to the U.S. Department of Health, Education, and Welfare, Education Division, National Center for Education Statistics, ATTENTION: Room 3073-HEGIS, 400 Maryland Avenue, S.W., Washington, D.C. 20202, not later than October 31, 1979.

Please attach supplemental information, comments, etc., on a separate sheet.

All data reported should be whole dollars only, omit cents.

For any item in any part where exact data do not exist, please give estimates. Items referenced in specific instructions below will be referred to by their line numbers.

Part A. Current funds revenues by source for fiscal year ending 1979

Instructions for Part A. Current funds revenues include all unrestricted gifts and other unrestricted revenues earned during the fiscal year and restricted current funds to the extent that such funds were expended for current operating purposes.

LINE 1. Tuition and fees. Report all tuition and fees assessed against students for current operating purposes. Include tuition and fee remissions or exemptions even though there is no intention of collecting from the student. Include here those tuitions and fees which are remitted to the State as an offset to the State appropriation. (Charges for room, board, and other services rendered by auxiliary enterprises are not reported here. See line 16.)

LINES 2, 3, and 4. Governmental appropriations include all amounts received from or made available to the institution through acts of a legislative body, except grants or contracts. These funds are for meeting current operating expenses and NOT for specific projects or programs. Examples are Federal land-grant appropriations and Federal revenue sharing funds (line 2). Federal appropriations received through State channels is a subset of line 2 and should be included in the line 2 total for Federal appropriations.

LINES 5-10. Governmental grants and contracts. Report revenues from governmental agencies which are for specific research projects or other types of programs. Examples are research projects, training programs, and similar activities for which amounts are received or expenditures are reimbursable under the terms of a government grant or contract. Amounts equal to direct costs incurred should be recorded as charges against current restricted funds and reported as restricted current funds revenues (lines 6, 8, and 10). Related indirect costs recovered should be reported as unrestricted revenues (lines 5, 7, and 9). Do not include BEOGs.

LINES 11 and 12. Private gifts, grants and contracts. Private gifts and grants include revenues from private donors for which no legal consideration is involved. Private contracts include those funds for which specific goods and services must be provided to the funder as stipulation for receipt of the funds. Include only those gifts, grants, and contracts that are directly related to instruction, research, or public service. Moneys received as a result of gifts, grants, or contracts from a foreign government would be reported here. Include the estimated dollar amount of contributed services on line 11.

LINES 13 and 14. Endowment income. Report: (1) the unrestricted income of endowment and similar funds; (2) restricted income of endowment and similar funds to the extent expended for current operating purposes; and (3) income from funds held in trust by others under irrevocable trusts. Do not include capital gains or losses. If any such gains are spent for current operations, these should be treated as transfers, not revenues.

LINE 15. Sales and services of educational activities. Report revenues derived from the sales of goods or services that are incidental to the conduct of instruction, research, or public service. Examples include film rentals, scientific and literary publications, testing services, university presses, and dairy products.

LINE 16. Sales and services of auxiliary enterprises. Report here all revenues generated by the auxiliary enterprise operations of the institution. Auxiliary enterprises are managed as essentially self-supporting activities. Examples are residence halls, food services, student health services, college unions, college stores, barber shops, etc.

LINE 17. Sales and services of hospitals. Include the revenues (net of discounts and allowances) of a hospital operated by the institution. Do NOT include here gifts, grants, appropriations, research revenues, or endowment income. Include revenues of health clinics that are part of the hospital unless such clinics are part of the student health services program.

LINE 18. Other sources. Include all items of revenue not covered elsewhere. Examples are interest income and gains (net of losses) from investments of unrestricted current funds. Include revenues resulting from the sales and services of internal service departments to persons or agencies external to the institution *(e.g., the sale of computer time).*

LINE 19. Independent operations. Include all revenues associated with operations independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public service) although they may indirectly contribute to these programs. This category generally includes only those revenues associated with major Federally Funded Research and Development Centers.

LINE 20. Total current funds revenues. Report here the sum of lines 1 through 19 inclusive.

Part B. Current funds expenditures and mandatory transfers for fiscal year ending 1979

Report both unrestricted and restricted current funds expenditures in the following functional classifications:

LINE 1. Instruction. Expenditures of the colleges, schools, departments, and other instructional divisions of the institution and expenditures for departmental research and public service which are not separately budgeted should be included in this classification. Include expenditures for both credit and noncredit activities. Exclude expenditures for academic administration where the primary function is administration (e.g., academic deans). This category includes the following subcategories: general academic instruction; occupational and vocational instruction; special session instruction, community education; preparatory and adult basic education; and remedial and tutorial instruction conducted by the teaching faculty for the institution's students.

LINE 2. Research. This category includes all funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. Do not report nonresearch sponsored programs (e.g., training programs).

LINE 3. Public service. Report all funds budgeted specifically for public service and expended for activities established primarily to provide noninstructional services beneficial to groups external to the institution. Examples are seminars and projects provided to particular sectors of the community. Include expenditures for community services and cooperative extension services.

LINE 4. Academic support. This category includes expenditures for the support services that are an integral part of the institution's primary missions of instruction, research, or public service. Include expenditures for libraries (line 5), museums, galleries, audio/visual services, academic computing support, ancillary support, academic administration, and personnel development, and course and curriculum development. (Include line 5 expenditures in the line 4 total for academic support.) Line 4 is NOT the sum of lines 1, 2, and 3.

LINE 6. Student services. Report funds expended for admissions, registrar activities, and activities whose primary purpose is to contribute to students' emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instruction program. Examples are career guidance, counseling, financial aid administration, student health services (except when operated as a self-supporting auxiliary enterprise).

LINE 7. Institutional support. Report expenditures for the day-to-day operational support of the institution, excluding expenditures for physical plant operations. Include general administrative services, executive direction and planning, legal and fiscal operations, and community relations.

LINE 8. Operation and maintenance of plant. Report all expenditures for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes. Do not include expenditures made from the institutional plant funds accounts.

LINES 9 and 10. Scholarships and fellowships. This category applies only to monies given in the form of outright grants and trainee stipends to individuals enrolled in formal coursework, either for credit or not. Do not report Federal Basic Educational Opportunity Grants, ROTC scholarships, or other programs where the institution is not allowed to select the recipient of the grant. Aid to students in the form of tuition or fee remissions should be included. (Exclude those remissions which are granted because of faculty or staff status. Charge these to staff benefits.) [Do not report College Work Study program expenses here; report these expenses where the student served (e.g., dining halls, line 14; for a professor, line 1, etc.). If necessary, estimate.]

LINE 11. Educational and general mandatory transfers. Mandatory transfers from current funds are those that must be made in order to fulfill a binding legal obligation of the institution. Report mandatory debt-service provisions relating to academic and administrative buildings, including (1) amounts set aside for debt retirement and interest, and (2) required provisions for renewal and replacements to the extent not financed from other sources.

LINE 12. Total educational and general expenditures and mandatory transfers. Enter here the sum of lines 1 through 4 plus 6 through 11.

LINE 13. Mandatory transfers for auxiliary enterprises. Report the amount transferred from current funds for mandatory debt service provisions relating to auxiliary enterprises. Examples include maintenance reserves.

LINE 14. Auxiliary enterprises. This category includes those essentially self-supporting operations which exist to furnish a service to students, faculty, or staff, and which charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Examples are residence halls, food services, college stores, and intercollegiate athletics. (Include the mandatory transfers amount on line 13 in the line 14 amount.)

LINE 15. Mandatory transfers for hospitals. Report the amount transferred from current funds for mandatory debt service provisions relating to hospitals.

LINE 16. Hospitals. Report all expenditures, except depreciation, associated with the operation of the hospital, including nursing expenses, other professional services, general services, administrative services, fiscal services, and charges for physical plant operations. (Include the mandatory transfers amount on line 15 in the line 16 amount.)

LINE 17. Mandatory transfers for independent operations. Report the amount transferred from current funds for mandatory debt service provisions relating to independent operations.

LINE 18. Independent operations. Include all funds expended for operations that are independent of or unrelated to the primary missions of the institution, although they may indirectly contribute to the enhancement of these programs. This category is generally limited to expenditures of a major Federally Funded Research and Development Center. Do not include the expenditures of operations owned and managed as investments of the institution's endowment funds. (Include the line 17 amount in the line 18 amount.)

LINE 19. Total current funds expenditures and mandatory transfers. Report the sum of lines 12, 14, 16, and 18.

Part C. Physical plant assets for fiscal year ending 1979

Report the values of land, buildings, and equipment owned, rented, or utilized by the institution. Do not include those plant values which are a part of endowment or other capital fund investments in real estate. Data for your institution which are not kept on the books of account of your institution, but are kept in the records of another organization or agency for your institution, should be included (e.g., State schools should report physical plant even though records are maintained by a State agency). Exclude construction in progress; report completed buildings as an addition when accepted.

LINES 1, 2, and 3. Report the book values of land, buildings, and equipment.

COLUMN (2). Book value of plant at the beginning of fiscal year is intended as the dollar amount of value as shown on the institution's accounting records.

COLUMN (3). Additions during the year are additions to plant made through purchase, by gift-in-kind from donor, and from other additions.

COLUMN (4). Deductions from the plant are deductions resulting from selling, razing, fire or other hazards, or other disposition of assets.

COLUMN (5). Book value of plant at the ending of the fiscal year is intended as the dollar amount of value as shown on the institution's accounting records. Column (5) is the sum of columns (2) and (3), less column (4).

COLUMN (6). Report or estimate the current costs to replace all buildings owned or utilized by the institution. Report recent appraisal value or what is currently carried as insurance replacement value. Do not include the replacement values of those buildings which are a part of endowment or other capital fund investments in real estate. This figure is not a book value figure.

Part D Indebtedness of physical plant for fiscal year ending 1979

In Part D, report data on indebtedness liability against the physical plant. Include auxiliary enterprises facilities as well as educational and general facilities. Examples of auxiliary enterprises facilities are those used for operation of housing, food service, bookstores, and other units which are classified as auxiliary enterprises. Enter zeroes or NA's if your institution has no indebtedness.

LINE 1. Balance owed on indebtedness principal at the beginning of the year is that amount shown in the liability section of the plant fund balance sheet.

LINE 2. Additional principal borrowed during the year is loans negotiated through bonds, mortgages, notes, or any other type of financing (including short-term notes) and amounts borrowed from other institutional funds for physical plant.

LINE 3. Payments on plant loans principal during the year is the amount used to reduce the principal of loans, regardless of the source of funds.

LINE 4. Balance owed on indebtedness principal at the ending of the year is that amount shown in the liability section of the plant fund balance sheet. It is the sum of line 1 plus line 2, less line 3.

LINE 5. Interest payments on physical plant indebtedness. Report the total interest charges paid during the fiscal year on physical plant indebtedness. Exclude principal repayments (see line 3).

Part E. Details of endowment assets for fiscal year ending 1979

In Part E, report the amounts of gross investments of endowment, term endowment and quasi-endowment (funds functioning as endowment). DO NOT reduce investments by liabilities for Part E. (Part F column 4 requests endowment funds net of liabilities and therefore may be different from the totals reported for Part E.)

LINE 1. Value of endowment at the beginning of the fiscal year. Report the book value of endowment in the first column and the market value in the second column. (If market value on some investments is not available, use whatever value was assigned by the institution in reporting market values in the annual financial report.)

LINE 2. Value of endowment at the end of the fiscal year. The book value of endowment at the end of the fiscal year is that figure shown on the accounting records of your institution. Report this value in column (1) and the market value of endowment at the end of the year in column (2).

LINE 3. Endowment yield (dividends, interest, rents, etc.). Yield includes all earnings (not realized gains) on investments of endowments regardless of distribution made of the earnings to various institutional funds.

Part F. Statement of changes in fund balances for fiscal year ending 1979

The "Statement of Changes in Fund Balances" describes the total institutional flow of funds into, out of, and among all the various fund groups. Also included is a summary of the net effect of these flows (including beginning and ending balances) for each fund group. (See Figure 4 in the *Higher Education Finance Manual.*)

LINE 1. Additions. Report all moneys, excluding transfers, added to any fund group during the fiscal year.

LINE 2. Deductions. Report all funds, except transfers, flowing out of any of the fund groups during the fiscal year.

LINE 3. Total transfers into/(out of). Report mandatory and nonmandatory transfers flowing into or out of any of the fund groups during the fiscal year. Transfers are self-balancing across the columns. That is, every transfer results in an equal addition (shown as a positive figure in the receiving fund group column) and deduction (shown as a negative figure in parentheses in the donor fund group column), *therefore the net result always will be zero.*

LINE 4. Net increase (decrease) for year. Report the net change in fund balances from the beginning to the ending of the fiscal year. It is the difference between lines 6 and 5. A net increase is reported as a positive figure and a net decrease is reported as a negative figure (in parentheses).

LINE 5. Fund balance at beginning of year. Report the total of the fund balance prior to any of the flows additions, deductions, and transfers described in the statement for that fund group.

LINE 6. Fund balance at end of year. Report the total for the fund balance after all of the additions, deductions, and transfers described in the statement.

COLUMN (1). Unrestricted current funds. Report those funds that the institution's management may use for any purpose it deems necessary. Include unrestricted funds that are designated by the institution's governing board for a specific use.

COLUMN (2). Restricted current funds. Report those funds that are given to the institution for a very specific aspect of the institution's current operations.

COLUMN (3). Loan funds. Report those funds that have been loaned, or are available for loans to students, faculty, and staff. Do not include loans made to the institution.

COLUMN (4). Endowment funds. This fund group includes funds whose principal is nonexpendable and that are intended to be invested to provide earnings for institutional use. Include term endowment and quasi-endowment funds.

COLUMN (5). Annuity and life income funds. This category includes all funds carrying a stipulation that the institution make payments to one or more specified beneficiaries.

COLUMN (6). Plant funds. Report all unexpended plant funds, funds for renewal and replacement, funds for debt service charges and for the retirement of indebtedness, and the amount of institutional funds invested in physical plant facilities (other than those of endowment and similar funds).

Part G. To be completed by PUBLIC institutions only

Part G is designed to meet the data needs of the Bureau of the Census, U.S. Department of Commerce. It is to be completed by publicly controlled institutions only. The set of instructions, definitions, and reporting procedures for Part G differs from that for Part A through F. The instructions are consistent with the U.S. Department of Commerce's classification manual for public jurisdictions that are applied to the finances of all governments. For additional clarification on Part G, call Mr. Howard Sales or Mr. Ulvey Harris, Bureau of the Census, at (301) 763-2892.

LINE 1. Include receipts from sale of products of agricultural experiment station farms and for agricultural extension services.

LINE 2. This information should only be furnished by two-year institutions which are in part financed from taxes levied specifically for the support of an educational institution(s). Include taxes for current restricted and unrestricted funds as well as for plant funds and for debt service.

LINES 3 and 4. Include only Federal funds received for hospitals and agricultural experiment stations and extension services. On line 3 report funds received directly from the Federal Government (e.g., HEW and

Dept. of Agriculture project grants). On line 4 report Federal monies received through State government agencies including Medicaid payments. All data provided in column (2) should pertain to hospitals in which service to the community or State is paramount (not infirmaries for students).

LINE 5. Report for the functions identified in the column headings gross salaries and wages of the academic and non-academic staff, paid student help, and part-time employees without deduction of withholdings for income tax or employee contributions for social security or retirement coverage. Do not include employer contributions for retirement and other benefits on this line.

LINE 6. Report for the functions identified in the column headings other current expenditures (such as for supplies, materials, contractual services, insurance, etc.). The following types of payments should be excluded from this line: (1) interest on debt, (2) retirement of debt, (3) scholarships and fellowships, (4) capital outlay, (5) investment in securities, (6) making loans, (7) employer contributions of a State education institution to a State administered employee-retirement system, (8) employer contributions of a local education institution to a locally administered employee-retirement system, and (9) interfund transfers.

LINES 7 through 9. Report on line 7 expenditures (from bond fund proceeds and all other funds) for the construction of new structures and other improvements, additions, replacements, and major alterations. Include in column (4) outlays for physical plant utilized by the departments, colleges, schools, and instructional divisions of the institution. Also, include outlays for administrative plant and libraries. On line 8 enter expenditures for the purchase of equipment (replacements as well as additions) and on line 9 the purchase of land and existing structures.

LINE 10. Amount of interest paid including any interest on short-term or nonguaranteed obligations as well as general obligations. Exclude debt principal retirement.

LINES 11 through 14. Report bonds, mortgages, etc., with an original term of more than one year, which are payable solely from pledged earnings, charges, or fees (e.g., dormitory, stadium, and student-union revenue bonds). Include any loans (not "Commitments") from H.H.F.A. and other Federal agencies. Exclude guaranteed long-term debt (i.e., those obgligations that are issued by the State and backed by a pledge of credit to the State).

LINES 15 and 16. Report anticipation notes, interest-bearing warrants and other obligations with a term of one year or less. Exclude accounts payable and other noninterest-bearing obligations. Do not include interfund loans, or advances from State funds.

LINES 17 through 21. Report amounts of cash on hand and on deposit, and security holdings (at par value) as to all funds and accounts of your institution except agency accounts held in private trust or custodial capacity, and any contributory employee-retirement system funds. Include endowment funds, loan funds, and plant funds, as well as current funds. Exclude accounts receivable, value of property other than securities, and any amounts held for your institution by the State Treasurer. Sinking funds (column (2)) are reserves held specifically for redemption of long-term debt reported on line 14 (but exclude any amounts for interest obligations). Bond funds (column (3)) are funds established to account for the proceeds of bond issues pending their disbursement.

LINE 19. Report the obligations of the following seven government-owned agencies: CCC, Export-Import Bank, Federal Financing Banks, FHA, GNMA, Postal Service, and TVA.
